Alfred Kinney, who returned from Pioneer a few days since, while reticent, expresses the opinion that Andy Bartlett and he have a promising prospect at that noted silver camp. The claim shows some good ore. A shaft is now being sunk which will materially assist the opening of the mine.

Mr. and Mrs. Robert Chabot went to Tucson on Thursday, to meet Mrs. Chabot's sister, Miss Otis, of Washington, D. C., who will spend the winter with them here. Mr. Chabot will extend his journey to San Francisco, and pending his return the ladies will remain at Tucson where they have friends.

To Brookner, Jr.

A POOR RELATION.

A bald headed duffer invaded my house, Demanding both lodging and rations. With boundless permission to drink and carouse—

He's one of my wife's poor relations. He hasn't a sign of a tooth in his head. And nimbles whatever he'd utter—

From the time of his advent all comfort has fled,

He's thrown the whole place in a flutter.

He came without even a suit to his back, But they've given him all he has wanted: There's nothing he calls for the fellow must lack,

Yet his qualities loudly are vaunted By the whole of the house except me. He's an odd,

The cause of all our perturbations; Day and night he does nothing but gzzle and loaf—

This one of my wife's poor relations.

And yet he's already the ruler of all, Though he came but along in September; I protest, but am crushed with a force to appeal

When I growl at this arrogant bummer. And, in fact, I'm afraid that the spell is on me—

There comes to first fancies negations— And something that's nightly, taking I see, In one of my wife's poor relations."

"Nemo."

The writer of the above knows how it is herself, and on more than one occasion has had her domicile invaded by extremely young persons, sans clothing, sans food, sans everything except strong voices, but, nevertheless, a mother's hope and joy about them wreathed, like moss to wood-flowers, warm and wild.

Query—Why did our rural correspondent neglect to mention that Brookner, Jr., was not alone? He was accompanied by a sister. They traveled together, side by side. They are kindred ones that will ever share a parent's love, and in babyhood the same plain fare. Her name is Bessie and his is Glenn.

Will Open Next Week at Bailey's.

Mr. and Mrs. John M. Jones, who have been enjoying themselves in the East for some months, arrived in Globe yesterday. Mrs. Jones, while swinging round the circle, visited Meadville, Pennsylvania, her childhood's home, after an absence of several years. Her husband, who is a member of the G. A. R., has been in attendance upon the reunion of the Grand Army veterans, which recently occurred in Milwaukee. Mr. and Mrs. Jones greatly enjoyed their trip, but, notwithstanding, they are well pleased to be at home in time to avoid witnessing the cheerless death of an Eastern summer.

The postal advertisement of September 16th, inviting proposals for carrying the mails in Arizona, contracts to go into effect July 1, 1890, reduces the time between Florence and Globe to 20 hours. Mails to leave Florence daily at 2 p. m. and arrive at Globe at or before 10 a. m. Leave Globe at 8 a. m., arrive in Florence in 20 hours. Bond required with bid \$12,000; check, \$800. Postmaster Bailey will write the department suggesting that the hour for departure for mails from Globe be changed to 2 p. m., so as to allow persons time to read and reply to mail received in the morning.

The Florence Enterprise chronicles the death, on Wednesday of last week, of Col. Levi Ruggles, who was widely and favorably known in Arizona. He came to Arizona in 1866, as Indian agent for the Pimas and afterwards was appointed Register of the U. S. land office in this place. He served as Probate Judge for several terms and also represented this county in the legislature two terms. He leaves a family of two sons and a daughter, his wife, having died several years ago. The Colonel was sixty-five years of age.

A SPLENDID PERFORMANCE.

The pleasing entertainment at the Rink, under the management of Edward Lynes and his volunteer associates, was highly appreciated by both old and young. The audience was the largest assembled at any entertainment in Globe for several years. The object was a most worthy one, for enclosing the home of loved ones now dead, which has been too long neglected. The programme was as varied as a dream. There was no tripping on the part of performers, and, although the object of the entertainment related to the grave, King Dory had no part in the performance. On the contrary, everything connected with the performance passed as pleasantly as the most sanguine could have wished.

Owing to our limited space we are compelled to forego a detailed account of the entertainment. All who participated are deserving of praise, but we can not pass No. 7 on the programme without special mention. It was an opera entitled "Native Daughters," and rendered by the young misses, Pascoe, Kenyon, Cella, Nello, Shanley, McCabe, Watson, Moreno, Graydon, Rosenkrantz, Kennedy, Haverly, Reynolds, Thompson and Fredericks. This was to many the most pleasing piece on the programme and the fair performers were loudly applauded. The singing of "Hunky Dory" was a prominent feature of the opera, and "brought down the house."

To Mr. Lynes' indefatigable efforts as director of the entertainment the success achieved was largely due, and he is entitled to the warmest praise. The entertainment netted a handsome sum, and, together with donations of material and labor, will be amply sufficient for the purpose for which it is desired.

Upon the completion of the programme the floor was cleared and dancing was inaugurated, and participated in by a large portion of the audience.

The plans and specifications were yesterday shown a Union representative of an elegant residence for E. F. Kellner, of Arizona, which he has arranged to be completed by the time he returns next year to make it his permanent summer home. It will occupy lots 11, 12 and 13, in block 5 Coronado Beach, situated on the crest of the hill with about one-third slope to Front Street. The site has a circular front of 450 feet and 240 feet base, and commands a delightful view of the city, harbor, ocean and the grand Coronado Hotel close by. The plans include a stylish cottage of eleven rooms with all modern improvements, and finished in natural woods, also a two-story children's play house, a handsome barn, a gymnasium and a work shop, in which to while away idle hours. Mr. Kellner has built a pretty boathouse adjoining the Coronado boathouse, and owns the smartest boat of its size on this coast. The boat Mamie was built to his order in New York; it is clinker built of white cedar, copper fastened and nickel trimmed, orange shellacked, has copper bulkheads, life-preserver cushions, patent center board, metal keel, complete anchorage, a neat awning and handsome monogrammed silk sails and a fine fishing outfit. Mr. Kellner considers the bay and climate the best on this coast, and has concluded to make this his home.—San Diego Union.

A Nogales dispatch, of Sept. 30th, to the Tucson Citizen, says: K. J. Tallier, leader of the gang who robbed a train on the Sonora railroad a year ago last May and killed conductor Atkinson and Fireman Forbes, and who was subsequently convicted of his crimes and sentenced to death, was shot early this morning by the Mexican authorities at Guaymas.

Tallier was officially notified Saturday, by the district judge at Guaymas, to prepare for death, as the sentence of the court, must, according to the law, be carried out within seventy-two hours after that notification. When informed of his doom, Tallier staggered back against the wall and turned ashy pale. He had hoped that his sentence would be commuted to imprisonment for life. The only American witness of the execution of the death sentence was Ira Hay, an express messenger, who was seriously wounded by Tallier's gang at the time of the robbery.

A very encouraging report has been received from the Fame silver mine. Good ore has been encountered in the large vein, and present indications are favorable for a large and strong ore-body, and as has always been the case heretofore, the ore is rich. Before this can be fully verified a little more development must be done. In this connection it is well to state that the vein from which the richest ore was taken, a few months ago, shows more of the same quality as that which gave such large returns. That run netted \$19,500 from 39 tons of ore, and left 167 ounces in the tailings, which is accounted for in consequence of an insufficiency of quicksilver. It is expected that the tailings will net \$4,000 when reworked.

G. S. Van Wagenen sells all classes of goods as low as the lowest and promptly delivers goods.

Salt River, Tonto, and nearly all the mining camps within 20 miles of Globe were represented at the entertainment last night.

Jesus Bracamonte, charged with resisting arrest, waived examination, and will answer at the next term of the District Court. His bond was placed at \$500, which being unable to furnish, he languishes in jail.

Supervisor Shanley is in receipt of news of the destruction of Mr. and Mrs. Pat Rose's residence in Pinos Altos, N. M., where his daughter, Miss Mollie Shanley, has been visiting. The fire occurred on the 26th ult., but the details received are meagre.

Tom Moyle, Harry and Tom Letcher have made two shipments of ore from their Richmond Basin mine recently. Alonzo Bailey forwarded the ore to Socorro. Nearly all the chibuders at the Basin are getting ore, and just now it is the largest producing silver camp in Gila county.

A dispatch from Casa Grande to the Tucson Citizen reports the robbery of the south bound stage from Florence by two Mexicans. Mails and express box were taken.

Mr. Henderson, driver of the Globe and Riverside buckboard, states that it was the north bound stage that was robbed.

Fresh candy at G. S. Van Wagenen's.

A Fortunate Druggist.

Mr. Edwin W. Joy for many years and now a prominent druggist on the corner of Stockton and Main streets in San Francisco, probably never dreamed of rivaling in wealth the medicine kings of the country. But various rumors having been floating around to the effect that he has struck it big, as a fortune teller was said to be in the treatment of liver and kidney disorders, and vitiated blood, in fact his ability to cope with these common complaints was little short of the marvelous. He seemed almost infallible, and his quiet modest methods and his well-kept secret as much a mystery as himself. After his dynamo about a year later Mr. Joy determined to fathom the secret, and copying all the prescriptions he had filled for the erratic doctor, he began a systematic analysis. In his examination he discovered running all through the prescriptions for liver and kidney troubles, vitiated blood and stomach disorders a couple of vegetable extracts indigenous to California, so simple and so well known under honest every day names to every school boy as to entirely disprove the suspicion that they were the active principles involved. So certain, however, was Mr. Joy that he had discovered the secret that he embodied the new elements in a preparation of simple pills to dispense the taste, and put it before his customers under the modest name of Joy's Vegetable Sarsaparilla. Immediately the same marvelous stories came back of his astonishing effects, and the mystery was solved, and the talk that he created has already earned it a widespread prominence, and today in daily from all over the coast. People seem to be taking it and writing and talking about it throughout the State. And thus another California industry leaps into existence.—S. F. Examiner.

In the examination of George Young charged with the murder of Chas. W. Beach, at Prescott, the evidence reflecting most strongly against the defendant was that of Mrs. A. M. Albright who testified that, immediately after the shooting she ran to the north gate of her yard, which is opposite Mrs. Taylor's, and recognized a short built man running up the hill, with a gun in his hand, and was confident the person was George Young. This was about 7 o'clock in the evening, and the night was very clear. She further testified that Mr. Young was but about twelve paces from her, and when he passed her at the gate was running rapidly up toward the hill. Was but slightly acquainted with Young, but recognized dark clothes on him, and it was her belief that it was Young.

John Hall, an employee of the O. K. store, stated that Young came into the corral at about 6 o'clock on the morning of the day of the shooting and left a shot-gun and a horse. Afterwards he came back, and left again at about 6 o'clock, taking gun and horse.

Young was held to appear before the next grand jury, and released from custody upon furnishing bonds in the sum of \$500.

Deafness Can't be Cured By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh,) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

NOTICE TO THE PUBLIC.

That the public may not be deceived by false statements, I hereby give public notice that all present and current legal demands for the support of the various public institutions, including superintendent or all other employees as passed by the old or Zulick Board are, upon presentation, audited by Auditor Hughes and have been so audited since July last. When there is money in the treasury to the credit of the fund against which the warrant is drawn it is paid in cash; when there is no money the treasurer endorses the warrant and it draws interest from that date, exactly as has been done for two years past.

The cry that the wheels of business are being blocked, or that there is any just cause for the depreciation in Territorial warrants, is false and done by unscrupulous persons for their own vicious ends. There is no just reason why Territorial warrants should be depreciated. The Territory receives its funds in January, February and March and that has always been the season for redemption of warrants. The Territory's resources and ability to pay are better to-day than they ever were. So again I say, do not allow vicious misrepresentations to affect your judgment as to the value of your warrants. They are as good to-day as they ever were, and you will get your money just as soon as you would have done had there been no change of administration. Respectfully,

LEWIS WOLLEY, Governor.

A Ditz in the Ribs. If on the right side and lower part of the diaphragm, though playfully meant and delivered, is calculated to evoke profanity from a chaffy whose liver is out of order. When that region is sore and congested, pokes seem fiendish. Look at a man's countenance as you prod him under the ribs. If his skin and eyeballs have a sallow tinge, you may infer also that his tongue is furred, his breath apt to be sour, that he has pains not only beneath his ribs, but also under the right shoulder-blade. Also, that his bowels are irregular and his digestion impaired. Instead of making a jocose demonstration on his ribs, recommend him to take, and steadily persist in taking, Hostetter's Stomach Bitters, the finest anti-bilious and alterative medicine extant. Incomparable it is, also, for dyspepsia, rheumatism, nervousness, kidney trouble, and fever and ague.
